Bottle size H15,5 cm Ø5 cm
Weight ~0,28 kg

Remember our kitchen products!

Ask your authorised dealer for more information.

All products and packaging material are 100% recyclable

EcoFurn® products are packed ecologically in flat packs to avoid excessive packing material and to lower shipping costs. Flat pack delivery means smaller carbon footprint. Assembled products can be shipped with additional costs. Please note that all the product weights are referential due to wood's natural features.

For over a decade, EcoFurn® has been striving to manufacture ecological products from solid wood. There are four characteristics that connect all our products
- they are attractive, durable, fixable and recyclable.

Inspired by the wonderful nature in Finland, we combine decades of experience in handicraft with fresh design. As a result we have created products that are easy on the eye, but also sustainable and climate friendly.

We are not done, this is a work in progress. In years to come, new products will be designed with the same set of values.

Join us for the journey!
