Quality Flooring

HARO CORKETT  
Arteo XL -  
Cork with the look of  
parquet

# Welcome to HARO

Company management in the fourth and fifth generations:  
Peter Hamberger and Dr. Peter M. Hamberger

With a HARO CORKETT Cork Floor, you benefit from our expertise and experience gained through almost 150 years of wood manufacturing and more than 60 years of manufacturing multilayer parquet. Trends in cork flooring are going in two directions. Whilst one focus is on the classical cork styles, there is also a growing trend towards natural and highly authentic looking wood reproductions.

As parquet specialists we have a feel for the most beautiful and natural wood styles. The new narrow board format makes the resemblance to wood floors even more striking. With our cork floors you will of course also benefit from quality made in Germany. Be inspired by our wide variety of cork floors on the following pages.

Natural living with cork flooring – in a classical design or with the amazing look of real wood

Cork flooring is in line with the latest trends. Natural, sustainable, healthy and versatile, it is truly multi-talented. The raw material is 100% natural and a renewable resource in the true sense of the word: It is made from the bark of the cork oak and harvested without felling the trees. Another positive effect of a cork floor is its insulating properties, which effectively help to reduce energy costs. Cork also provides pleasant foot warmth and is thus the ideal floor for living spaces. In addition, state-of-the-art cork floors from HARO look fabulous, are perfectly engineered and come in a wide variety of styles. If you are looking to create a natural, stylish and comfortable living environment in your home: Welcome to HARO CORKETT Cork Floor.

HARO CORKETT in classical  
format 298 x 907 mm  
(11 23/32" x 35 23/32")

HARO CORKETT  
ARCOS COFFEE

HARO CORKETT  
ARCOS COFFEE

## Arcos design

---

### Timeless and up-to-date

HARO CORKETT Arcos in trendy colour combinations Coffee and Antique White show the true class of choice cork flooring: This natural floor covering has risen to the top league of design and provides the perfect basis for wide variety of interior designs.

HARO CORKETT  
ARCOS ANTIQUE WHITE

# Sirio design

---

## Past, present and future: Cork

Only a cork floor can make such a tangible difference: not only with respect to naturalness and building biology but also to comfort and durability. With its fine classical granule size, Sirio provides a calm natural floor for every application.

HARO CORKETT  
SIRIO NATUR

## Ronda design

---

### Classic cork - classic comfort

Wherever a floor covering has to offer more of everything, the Ronda cork design is the first choice for all living spaces. The advantages are plain to see and feel: Ronda offers functionality, naturalness, warmth, comfort and durability combined with the classic cork look and feel - creating a unique ambience.

HARO CORKETT  
RONDA NATUR

## Toledo design

---

### Comfortable living with cork

With HARO CORKETT in the Toledo design you bring a fresh new look to your home. Unique: the delicate stripe design. Trendy: the Creme colour that adds a touch of elegance. Pleasant: the warmth, resilience and naturalness.

# Tigra design

---

Sustainable living with a modern twist

Elegant black combined with warm cork brown – exciting look in unusual design: the typical features of HARO CORKETT Tigra. This is THE floor for for highly individual interior designs that are as natural as they are unique.

HARO CORKETT

## Cork meets oak

---

Your eyes tell you it's oak, but your touch reveals that it's cork.  
The two wood reproductions Oak Italica Nature and Smoked show  
the modern side of cork as a natural product.

HARO CORKETT  
ARTEO WALNUT\*

---

## The new cork dimension

---

Our decades of experience combined with state-of-the-art technology make it possible: high-quality cork with a wood texture that is almost indistinguishable from the original. For example, in a trendy walnut style that displays the vibrant liveliness of the popular Longstrips.

## A natural wonder

Natural living is one of the big issues of our time. It touches many aspects of our lives right down to the materials we choose for our homes. Cork stands out as a clear number one. Cork is 100% recyclable. Cork is very sustainable as no trees are felled in the process. Cork is harvested by stripping the outer bark of the cork oak, which then re-grows over the next few years. Cork is as amazing in ecology as it is in terms of well-being: it is warm to the touch, heat and sound insulating, durable, easy to maintain, and offers almost limitless design options. A unique combination of high style, sustainability and naturalness, HARO Cork Floors create inimitable design environments.

### Unlimited possibilities

Cork is the ideal basis for modern digital printing processes. As a result, we not only offer cork floors with the classic cork look, but also with authentic wood decors or with abstract patterns. And, as Germany's leading parquet specialist we take pride in the fact that our wood styles are almost indistinguishable from the originals. One more reason to choose HARO quality cork flooring.

**HARO Cork Floor Classic**  
Purely natural

**HARO Cork Floor Digital**  
Always trendy  
(Arteo/Arteo XL design)

Only real cork provides quality benefits for sustainable living:

- Brand-name quality – made in Germany
- Natural product from the bark of the cork oak
- Renewable natural resource
- Comprehensive product range to meet every taste
- Warm to the touch, elastic and kind to joints and spine, improved sound insulation
- Hypoallergenic
- Easy to install thanks to Top Connect – underfloor heating compatible
- Durable and easy to maintain

### Did you know

- that cork is as elastic as the human skin? That's because one piece of cork of the size of a sugar cube contains about 60 million air cells.
- that real cork does not collect dust or dirt – or dust mites? Asthmatics and allergy sufferers, in particular, will appreciate this characteristic.

## Convincing in every respect

HARO CORKETT provides convincing German build quality in each and every board. Its sophisticated construction, engineered from choice natural materials in combination with our PERMADUR finish, ensures lasting pleasure. With two board designs in a classical and a trendy format, HARO CORKETT displays the contemporary variety of a natural floor covering.

### Sophisticated engineering 3-layer construction with HDF E1 coreboard

1. PERMADUR natural matt cork finish
2. Cork top layer, approx. 3 mm, 1/8" (Sirio: approx. 2.5 mm, 3/32")
3. HDF E1 coreboard (approx. 6.5 mm, 1/4")
4. Cork footfall sound insulation (approx. 1.5 mm, 1/16")

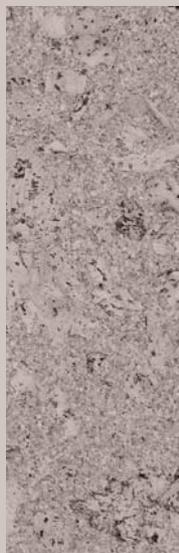

Overall thickness: 11 mm (7/16") Surface layer dimensions: 298 x 907 mm (11 23/32" x 35 23/32")  
HARO Cork Floor Digital: 195 x 1237 mm (7 11/16" x 48 11/16")

### Surface finish

The PERMADUR natural matt cork finish looks great and protects your HARO CORKETT cork floor.

- In step with the natural-matt surface finish trend
- Natural brilliance
- High durability
- Easy care
- Long lifespan and high hygiene level

HARO CORKETT  
classical format  
298 x 907 mm  
(11 23/32" x 35 23/32")

HARO CORKETT  
Arteo XL  
195 x 1237 mm  
(7 11/16" x 48 11/16")

### Board sizes

Whether you prefer a slender plank look or the wider tile format – HARO CORKETT cork floors will add natural flair and a stylish appearance to your home.

Natural look Cork – a piece of nature

Resilient and kind to joints and spine

Dimensionally stable due to multilayer construction

Suitable for use over underfloor heating

Foot warmth

Dirt-repellent and easy to maintain

Healthy indoor climate

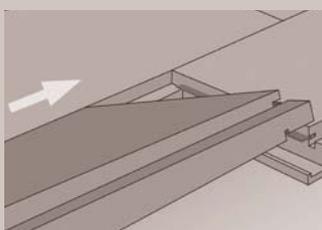

Natural care for natural floors HARO Cork Floors are true easy-care floors. For modern, responsible households we have developed environmentally safe cleaning and care products that are easy to use. Decades of know-how and our commitment to sustainability have influenced our own revolutionary development clean & green. The result is a product series specially designed for the specific requirements of the different floor types. For natural floors like our HARO Cork Floor we recommend clean & green natural parquet cleaner for regular cleaning and care. clean & green active intensive cleaner should be applied for deep cleaning and to remove heavy dirt.

The clean & green products are suitable for cleaning all our floor coverings.

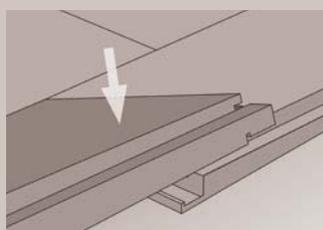

## Probably the world's easiest installation system: HARO Top Connect.

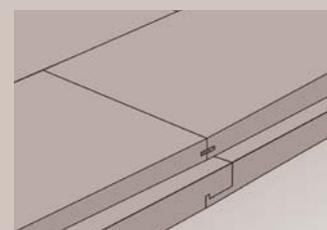

For all those who want to install their cork floor themselves, but have never dared to, we have developed Top Connect. With probably the world's easiest installation system the most beautiful floor designs can be created very simply and with extraordinary stability. Without any tools. The boards are angled in at the long sides and interlocked at the short sides with a small amount of pressure. The floor fits perfectly and is ready to be "lived on" immediately. And it is just as easy to disassemble when you move.

## Sustainability

Hamberger Flooring GmbH & Co. KG has been PEFC-certified since the beginning of 2004.

## ISO 9001

Our quality management system has been certified to DIN EN ISO 9001:2000 since 1995. It secures workflows in the company and consequently contributes to maintaining consistent product quality.

## ISO 14001

With the certification to DIN EN ISO 14001:2004, we have committed ourselves to an active environmental management since 1998.

## HARO Warranty

In addition to the statutory warranty term, HARO also provides additional warranties for various product groups. Please note the respective warranty conditions.

## Blue Angel eco label

The Blue Angel has certified the environmental compatibility of our products since 1992.

## Made in Germany

We manufacture all of our quality flooring at a single site in Germany – with the legendary German high precision engineering.

## Ü mark

To assure that construction quality standards are met, building materials have to be tested and certified with respect to technical, ecological and health properties. The Ü mark attests that a national technical approval (“bauaufsichtliche Zulassung”) has been granted, which is mandatory for all cork floors in Germany. For this approval, the materials used and the emissions are evaluated. This ensures product safety for manufacturers, dealers and installers. Consumers have the peace of mind of knowing that the product presents no health hazards.

## Matching accessories: HARO skirtings

For each of our cork floors, we offer matching skirtings to create the perfect overall impression. To make the realisation of your personal floor dream especially easy for you, we have developed an attractive, yet brilliantly simple skirting system.
