

35cm

A technical line drawing of a light fixture. The fixture has a wide, shallow, conical top section with a small dome-shaped protrusion in the center. Below this is a series of horizontal slats that form a funnel shape, narrowing towards the bottom. The bottom section consists of a cylindrical base with two thin vertical lines extending downwards, representing a mounting stem. Dimension lines are present: a horizontal line at the top indicates a diameter of 35cm, and a vertical line on the right indicates a height of 31cm.
