VTT-C-3043-08 - renewal

Dear wedi customers,

our local approval VTT-C-3043-08 "wedi + Mapei mapegum WPS märkätilajärjestelmä" will be currently renewed and extended by relevant wedi system components.

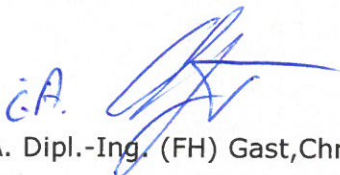

The main part of the required tests by EUROFINS are already passed (ETAG 022 ANNEX E test). Currently final tests and the documentation are in progress before the new VTT will be officially published by EUROFINS.

The wedi wetroom system is fully approved by ETAG 022 – Part 3 (ETA-13/0385) and the CE mark will cover the requirements for wall and floor sealing in wet rooms.

An ETA is fully accepted in Finland and can be used for the application in wet rooms as a proper documentation.

If you have additional technical questions you are welcome to get in contact with our technical team.

Best regards
