## Twist fabric

Twist is a fabric with a delicate weave and exceptional durability. Its colors have a subtle two-tone effect, which makes this material look stunning on upholstered furniture. This fabric does not pill during use and does not fade when exposed to light. Due to its synthetic composition, this upholstery fabric should not be exposed to high temperatures. Do not wash. Do not dry clean. Do not bleach.

### Technical specifications of the fabric

Type: Braided

Composition: 100% PES

Color fastness to light: 5

Pilling: 5

R.E.A.C.H. Standard:: Yes

Martindale abrasion resistance: >45,000

Oeko-Tex certificate: Yes

Weight: 330 g/m ± 5%

Abrasion resistance: dry 5, wet 5

## Soft fabric

Soft upholstery fabric is pleasant to the touch and imitates leather both in feel and embossed pattern. Soft upholstery fabric has no shine. It is soft and easy to arrange. Eco-leather is a synthetic fabric with a polyurethane coating on a woven mesh that reinforces it.

Soft fabric is an excellent alternative to real leather because it is cheaper and, at first glance, difficult to distinguish from the original. Soft eco-leather is characterized by high durability of 100,000 Martindale cycles, which means that it is very resistant to abrasion. It will therefore stand the test of time. Even after years of use, your furniture will look like new. Soft fabric is easy to clean using mild upholstery care products. Do not wash with water. Do not iron. Do not bleach.

Lightfast

### Technical specifications of the fabric

Type: Eco-leather

Abrasion resistance: dry 4-5, wet 4-5

Lightfastness: 6

Composition: 100% PU

Weight: 430 g/m<sup>2</sup> ± 10%

Martindale abrasion resistance: 68,000

Cleaning: hand wash, do not bleach, do not iron, do not dry clean, do not tumble dry

## Venus Velvet fabric

Venus Velvet is a fabric that is pleasant to the touch and slightly shiny. It belongs to velvet fabrics, which perfectly match today's interior designs. This material works great as upholstery for upholstered furniture – it is durable, resistant to abrasion, and does not pill during use. The fabric's advantages include the following certificates: Cleanaboo, which confirms that spilled liquids are difficult to absorb into the structure, Petproof, which confirms the fabric's extraordinary resistance to scratches from animal claws or the penetration of hair, and a flame retardancy certificate. The fabric can be hand washed at temperatures up to 30 degrees Celsius. Do not iron, bleach or dry clean.

Flame retardant: Yes

Weight: 450 g/m<sup>2</sup> ± 5%

Abrasion resistance: dry 5, wet 4-5

Cleaning instructions: wash at 40°C, do not iron, do not bleach, do not wring, do not tumble dry, do not dry clean, dry in the shade in an upright position

#### Magic Velvet fabric

Magic Velvet is a velvet fabric that is soft and delicate to the touch. It is highly resistant to abrasion and does not pill during use, ensuring that upholstered furniture retains its pristine appearance for years. Magic Velvet fabric is certified as flame retardant and has Cleanaboo properties that prevent liquids from being absorbed into the structure of the furniture. In addition, the material has obtained the PETPROOF certificate, which confirms its high resistance to scratches caused by animal claws. The densely woven yarn prevents hair from getting stuck and is easy to keep clean – to clean the surface of the material, simply use a regular lint roller or a damp cloth. Due to the synthetic composition of the fabric, it should not be exposed to excessive heat or corrosive cleaning agents. Do not wash with water. Cleaning is only possible with mild upholstery care products.

Shading fabric: Yes

Cleaning instructions: wash at 30°C, do not bleach, do not tumble dry, do not iron, do not wring, do not dry clean, dry in an upright position

## Boucle Abriamo fabric

Boucle Abramo loop yarn stylishly decorates upholstered furniture. The decorative twist of the fibers, accompanied by knots, is the most characteristic feature of the fabric. The irregular surface of the thick fabric emphasizes the unique chic of sofas, poufs, and armchairs.

The fashionable shade of the yarn enhances the cozy feel of the furniture upholstered with it. The fabric is highly resistant to light-induced color fading. This feature ensures that the fabric will retain its original color intensity for a long time. Its high weight and good abrasion resistance also contribute to its good quality.

Weight: 540 g/m<sup>2</sup> ± 5%

Cleaning: hand wash, do not bleach, do not iron, do not dry clean, do not tumble dry

## Zetta fabric

Zetta is a fabric that is pleasant to the touch, soft, and elastic. It is perfect for upholstering furniture. It is a durable fabric that is resistant to pilling. Its advantage is a special Nano Block coating, which prevents liquids from being absorbed into the fabric structure.

The fabric should not be exposed to sunlight, as it may fade to a greater or lesser extent. Do not iron. Do not bleach. Do not dry clean.

## Sempre fabric

Sempre fabric will give your space a unique look. The unevenly cut pile creates a 3D effect. The pattern has a repetitive, modern motif with sharp lines that fit perfectly with, for example, the art deco style. Its unusual appearance goes hand in hand with practical properties. The upholstery fabric is resistant to friction and pilling. The yarn structure is also flame-retardant.

Cleaning: hand wash, do not bleach, do not iron, do not dry clean, do not tumble dry

#### Flow fabric

An interesting texture and chenille softness are among the advantages of Flow fabric. It is a material with many practical properties, perfect for furniture upholstery. The presented weave has obtained R.E.A.C.H and Oeko Tex certificates, which confirm its safety in use. Flow chenille is resistant to abrasion and pilling. It is flame retardant and light resistant. It also has limited liquid absorption and is child and environmentally friendly.

## Wave fabric

Wave is a pleasant and tasteful velour. The soft-touch material ensures high comfort. The fabric is easy to clean, making it perfect for upholstering lounge furniture. Its liquid-repellent properties ensure that spilled coffee or juice can be removed easily and without any problems. The yarn is designed with pet owners in mind. Increased resistance to animal claws will allow you to enjoy the great look of your furniture for a very long time.

## Otusso fabric

Soft and pleasant to the touch, Otusso velvet is a high-quality upholstery fabric. Corner sofas, sofas, and armchairs made with this fabric are distinguished by their elegant appearance and increased durability. The yarn's advantages include certified flame resistance and ease of cleaning. In turn, the modern Be Clean technology effectively protects the material against dirt penetration and stain formation.

Cleaning instructions: hand wash, do not bleach, do not iron, do not dry clean, do not tumble dry

## Sorriso fabric

Sorriso fabric is a sophisticated material characterized by exceptional softness. The fluffiness of the fabric results from its long pile, characteristic of plush fabric. Additional advantages of the fabric include high resistance to fading and pilling, as well as increased resistance to friction. Thanks to these properties, furniture upholstered with this fabric will retain its original appearance for longer. In addition, the material has flame-retardant properties.

The yarn is also pet-friendly. In practice, its pet-friendly properties are responsible for its increased resistance to scratches caused by animal claws.

Lightfast
