

Eva

Humidifier

Stadler Form®

SWISS DESIGN SINCE 1998

EVA – the sensitive power-humidifier

5 output levels, suitable for direct placement on floor

Pre-heating of the water results in warm mist & higher performance

Equipped with WiFi: device control via app

ADAPTIVE HUMIDITY™ technology automatically adapts the humidification output in Auto Mode in order to reach and keep the desired humidity level quietly and efficiently

WITH ADAPTIVE HUMIDITY™ (VERY QUIET)

As a power-woman, Eva blows the mist high up in the air using ultrasonic technology and provides for precise humidification with an external sensor. At the same time, the sensor serves as a remote control. Despite the power, she is a sensitive lady – thanks to the Adaptive Humidity™ technology in auto mode, she automatically adjusts the output level to reach and maintain the desired humidity quietly and efficiently. Eva is very flexible and offers the choice of five output levels and selectable humidity from 30 % – 75 %. In addition to LEDs that can be dimmed and switched off, Eva now has Wi-Fi from 2021: monitor air quality in real time and control all the device's functions, simply from an app on your smartphone. And to ensure your well-being is perfect, Eva distributes a scent of your choice!
